About me

Computer Science student with solid foundations on programming, computational paradigms and efficient problem-solving. Practical experience in Software Systems development.

Education

- 2023–present **Computer Science**, *Central University of Venezuela*, (6th Semester)
- 2022–present **Systems Engineering**, *National Experimental Polytechnic University 'Luis Caballero Mejías' – Vicerrectorado Luis Caballero Mejías'*, (3rd Semester)
- 2022–present **Bachelor's Degree in Music**, *Superior Music School 'José Ángel Lamas'*, (3rd Year)
- 2017–2022 **High School Diploma – Sciences**, *School 'San Francisco de Sales'*

Technical skills

- Languages C++ (intermediate-advanced), Python (intermediate), Java (intermediate), JavaScript (intermediate)
- Frameworks and libraries React, Vite, SFML, OpenGL (basic), GLFW (basic), ImGui(basic), Node.js (basic)
- Databases SQL (intermediate), Supabase
- Web HTML, CSS (intermediate)
- Development
- Methodologies Functional Programming (Haskell, Prolog), Concurrent Programming (Java), Classic Paradigms

Academic experience

- 2023–present **Teaching Assistant**, *Central University of Venezuela, Caracas*
Helper and consultant in the subject **Discrete Mathematics II**. Creation of educational resources, classes and assessment of student work.

Languages

- Spanish Native (C2)
- English Proficient (C1)
- French Beginner (A1)

Courses and certifications

- 2026–present **Voice-over**, *Voice-over School for the Americas and the Caribbean*
- July 2016 **Computer Maintenance and Repair**, *American Academy*, Length: 6 months
- 2011–2016 **English**, *Loscher Ebbinghaus*, Length: 5 years
